PROFILE

Frontend engineer with 6+ years of professional software experience across banking, payments, and enterprise products. I build thoughtful interfaces with React, TypeScript, and Next.js, connecting reusable architecture with performance, accessibility, and clear user journeys. Currently a Senior Associate Consultant at Infosys, supporting Visa in Mexico City.

CORE EXPERTISE

Interface engineering: React, TypeScript, JavaScript, Next.js, HTML, CSS, Material UI

Architecture & performance: Redux Toolkit, React Query, Design systems, Reusable components, Code splitting, Monorepos

Quality & delivery: Jest, React Testing Library, Accessibility, Git, Jenkins, CI/CD, Code reviews

AI-assisted development: Claude Code, GitHub Copilot, Gemini, Human-reviewed implementation

PROFESSIONAL EXPERIENCE

Infosys | Senior Associate Consultant

Dec 2024 – Present | Bengaluru / Mexico City

Engagements: Visa (current) / Citi (previous)

- Contribute to Visa enterprise products in a shared monorepo using React, TypeScript, and modern frontend architecture; coordinate changes across projects and teams.
- Delivered 20+ interactive features for Citi using React, TypeScript, and Next.js, including dashboard graphs and data visualizations.
- Reduced unnecessary re-renders by 35% and improved page load performance by 40% through state optimization, code splitting, and lazy loading on the Citi engagement.
- Mentored 3 junior developers and collaborated with product owners, QA, and DevOps to support 90% on-time delivery in two-week sprints.
- Review code, assess dependencies and vulnerabilities, and develop proofs of concept; use Claude Code and GitHub Copilot with engineering review and validation.

SHUBHAM RAJ

Professional experience, continued

Capgemini | Consultant

May 2021 – Dec 2024 | Kolkata, India

Engagements: Discover Bank / Abu Dhabi Bank

- Designed and delivered 50+ user-facing features with React, Redux, TypeScript, Vite, and Material UI for financial services applications.
- Refactored 30+ components and improved loading performance by 35% through API optimization and more efficient state management.
- Tested and optimized 140+ components for cross-browser compatibility; used Jest and React Testing Library for regression coverage.
- Collaborated with backend, design, product, and QA teams; contributed code reviews, ESLint and SonarQube checks, and CI/CD configuration.

Gammastack | Solution Engineer

May 2020 – Aug 2020 | Indore, India

Engagements: Product engineering

- Built data-driven applications with React and Next.js, including responsive components and server-side rendering.
- Integrated REST APIs with authentication and validation, and supported cloud deployments and critical-feature testing.

Nagravision | Software Engineer

Jul 2018 – Jul 2019 | Bengaluru, India

Engagements: Quality engineering

- Authored 350+ JavaScript tests and integrated automation into Jenkins build pipelines.
- Performed UI regression and device testing, coordinated with development teams, and documented test plans and execution results.

EDUCATION

M.Tech in Data Engineering

Indian Institute of Technology, Jodhpur

B.E. in Computer Science & Engineering

Bhilai Institute of Technology, Bhilai | 2014 – 2018

SELECTED CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Salesforce JavaScript Developer I | Salesforce | Jun 2025

ISTQB Foundation Level | ISTQB | Dec 2018

Certified Data Scientist | IABAC | Apr 2019
